Arish Islam

Software Developer | AI & Web Development

+91 9973397023 | arishislam096@gmail.com | GitHub | LeetCode | HackerEarth | Portfolio

Bihar, India

Career Objective

Aspiring Software Developer with a strong interest in Artificial Intelligence, Web Development, and problem-solving. Skilled in building AI-powered applications, developing web projects, and creating AI-driven workflows, with foundational knowledge of C++, Python, HTML, and CSS. Eager to apply technical skills to real-world challenges, learn emerging technologies, and contribute to innovative software solutions while continuously growing as a developer.

Education

Islamiya Urdu Academy, Bihar — 2026 – Present
Class XI – Science Stream, BSEB — Currently Studying

Vatayan School, Bihar — 2026
Class X – CBSE — Percentage: 86%

Projects

MedVitals.AI – AI Medical Assistant — GitHub

- Developed an AI-powered healthcare assistant using Python and Streamlit.
- Implemented AI-based text and image analysis.
- Integrated voice input/output functionality.
- Built an interactive user interface for patient input and AI responses.

AI Radar – Live Flight Tracker — GitHub

- Built a live flight-tracking web application to explore aircraft and flight activity.
- Developed a web-based interface focused on presenting flight-tracking information clearly.
- Designed the application to make flight tracking accessible through an interactive user experience.
- Project repository: AI Radar – Live Flight Tracker.

Apple Support AI Agent – Hiver SDE Intern Take-Home Project — GitHub

- Built an AI-powered customer support agent using Python, NLP, TF-IDF, Logistic Regression, and Streamlit.
- Implemented intent classification, historical case retrieval, evidence-grounded reply generation, and AUTO-HANDLE vs ESCALATE decisions.
- Evaluated the system on a 199-example manually reviewed golden set and documented failure modes, safety limitations, and baseline comparisons.
- Built a CLI + Streamlit demo with leakage-aware evaluation and explainable escalation reasons.

Certifications

- **Oracle Agentic AI Certified Foundations Associate** — *Sep 2026*
- **Canva AI Essentials** — *Oct 2026*

Achievements

LeetCode Problem Solving Solved 20+ coding problems on LeetCode, strengthening programming fundamentals, logical thinking, and problem-solving skills.

Technical Skills

- **Programming:** C++ (DSA), Basic Programming Concepts
- **Web Development:** HTML5, CSS3
- **AI:** AI Prompt Engineering, Prompt Design, AI Workflow Creation & Automation
- **Design:** Website Design, Basic UI/UX Design Principles
- **Problem Solving:** Data Structures & Algorithms, Logical Problem Solving
- **Other:** Content Structuring, Internet Research, Digital Tools

Languages

- **Hindi:** Native Proficiency
- **English:** Professional Working Proficiency
- **French:** Basic/Intermediate Proficiency
